

Samoa Water Authority
RECRUITMENT OF A NON
REVENUE WATER EXPERT

The Samoa Water Authority (SWA) is seeking to engage the services of a Non Revenue Water (NRW) Expert to provide an initial period of sixty (60) working days technical support to the SWA under its 2011/12 annual investment plan applying funds received through the Government of Samoa (GOS). Depending on TA performance and progress with other SWA initiatives it is anticipated that the assignment will be extended for a further one hundred and twenty (120) working days over the following 12 month period.

The purpose of the initial assignment period is to further develop and manage, with hands-on approach, the current SWA NRW reduction program in Savaii that is being implemented with SWA resources, provide NRW reduction / leak detection training to SWA personnel and develop capacity in planning, implementing, monitoring and maintaining the NRW reduction process and to assist the Commercial Division of SWA with reducing institutional "apparent" losses.

Quotations are invited from suitably qualified local and international Experts to undertake this assignment.

Detailed Terms of Reference and information on the application procedure are available from the following web sites (ref: SWA-UB9a/2011): www.swa.gov.ws under Services/Procurement.

The deadline for submission is 10.00am local Samoan time on Monday 6th February 2012.

Applications must be submitted to: Secretary Tender's Board, 4th Floor, Central Bank Building, Ministry of Finance, Private Bag, Apia, Samoa.
